Technical Information	The CCB-2 board is not provided with software. Local ABB service engineer will download the software. Contact MV Drives Supportline for further information of software. Any upgrade of old CCB board to new type CCB board will require software upgrade in both CCB and AMC board. Each ACS6000c project has unique loading package for CCB and AMC boards. It is not recommended to install different types of CCB boards in the same project. Before upgrade CCB board, it is required to contact with either Marine Services or MV Drives Supportline to get correct loading package.
